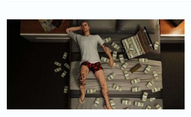
Gta v nightclub business guide mod



Among those business, many players, especially new beginners get confused with night club. GTA Nightclub Business is a modification which tries to combine After Hours and The Ballad of Gay Tony into one big Nightlife Experience. Clubs The mod features three clubs. Printing & Copying = 1000$ / 15 mins; max 60 (Forged Documents). Oppressor MK2 Controls – think Deluxo. Or you can just sell any amount normally without any bonuses. Weapons & Upgrades – Proxy mine; Forward-mounted machineguns or missles OR Remote Missle Turret; Remote Grenade launcher for passenger. Customization – being a Pegasus vehicle, it has nothing except for a few liveries where you can choose only one during purchase. Weapons & Upgrades – also similair to Insurgent, default .50 cal or 3-barrel machinegun. Not my choice of the truck really. So, you can earn 41.6k$ per hour. To maximize profits, you can buy Cheap GTA 5 Boosting at mmocs.com, a reliable,cheap and fast online in-game currency store. Numbers shown below are for maxed storage. Freecrawler Controls – above average performance, but tends to flip on actual offroad due to high center of gravity. That is obviously a tiny amount, but you since you don't need to anything to get it, it's kinda reasonable. Customization – A few hood options (mostly recolor), bumpers recolor and exhausts. In the nightclub PC's management tab. Buyer's Guide for Weaponized Vehicles Note: Armor – how many RPG projectiles will take it to destroy the vehicle. The cool thing about them, they won't increase your utility charges and will get product from businesses even if you don't have supplies there. Money is extremely important in GTA Online. Best for flat roads. Menacer Controls – very similair to Insurgent. Pros: The Nightclub can cover the costs of your bunker staff, as every night it generates you 10K The Nightclub can offer an amazing amount of money as it is a passive business. Opinion – Cheap, fun traffic plower, its ultimate weapon choice (Turret) can't aim more lower than 0 degrees (parallel to X axis, not the vehicle itself) doesn't allow to use this truck to its maximum. Equipment upgrade or any facility upgrades DO NOT increase stock value (speed increase still unknown). What is NCB? Armor – 4 Opinion – and another mix of vehicles, however this one loses compared to it's older brother, Insurgent. Buyer's Guide for Civilian Vehicles Swinger Controls – Long 1st gear, incredibly high top speed and extremely unstable on bumps. And there isn't much really. Don't expect to climb mountains with it. Looks stunning. Raiding Works like with bunker, but different numbers. Opinion – Relatively cheap recreation of one-off Jaguar Xj13, perfect for collectors, questionable racing choice. Opinion – a very unique looking jeep, doesn't cost much so you might just buy and test it yourself. Random Info Changes, tips and tricks worth mentioning. You run your other businesses through the nightclub and the nightclub is has a lot to offer. Weapons & Upgrades – Proxy mine; Forward-mounted machinegun, Remote .50 cal (from insurgent) or Remote Minigun (from Turret Limo). Opinion – purely collectible luxurious vintage Rolls Royce. Opinion – A niche thing, recommended only for those who have friends. Those are "bundle" sales which require having select amount of product stored, eg 10 crates + 15 Cash + 3 Coke. Organic Produce = 1500$ / 20 mins; max 80 (Weed Farm). You won't be able to start moving on an ~15 deg incline without throttle control (possible only with controller) so keep that in mind. For selling < 90 crates Speedo Custom is used, 90-180 – Mule C, > 180 – Pounder C. You can set entrance price for other players, style of NPC's clothes, remove NPCs except staff completly (Private Club option), set who of players can access your club. Reaches 127 mp/h while hovering above ground and 87 in air. And here're the profits you can get for the goods. Selling They added new features here compared to warehouses. Weapons & Upgrades – none by default; upgradable with low-powered explosive cannon (very low AoE damage, takes 2 direct hits to destroy non-armored car, 9 against armored Pyro) OR missiles with improved tracking (from Deluxo) Armor – 1 (1 from Homing Launcher) Opinion – I don't know what to say yet, but I guess it won't be much of a trouble dealing with these considering their maneuvrability. Fourthly, you can launch all kinds of resupply missions from it. However, you need people to do that for you. Only works in the bottom bar. Unreleased Content Legendary Motorsport Warstock Terrorbyte – 1,375,000$ / 3,459,500$ (price depends on upgrades) B-11 StrikeForce – 3,800,000$ Oppressor MK2 – 2,925,000$ / 3,890,250$ Scramjet – 3,480,000$ / 4,628,400$ Menacer – 1,775,000$ In addition to that, a bunch of all vehicles will become purchasable. Nightclub comes by default with 1 level of storage (more on that in Business paragraph) and a specialized garage for Speedo (which also goes with the club), Mule and Pounder Customs. Fixed Flash GT's headlight. And hey, they also look great fully armored. There's a "Vortex Engine" upgrade that makes you lose altitude slower as the bike is noticably affected by gravity. Printing & Copying = 1000$ / 15 mins; max 60 (Forged Documents). You can dance at any place within any nightclub which is pretty fun and they even added 4 dance-related awards such as "Dance for 5 mins without skipping a beat". Pounder Custom Controls – Heaviest of the bunch, lots of ram power and wheelspin. Once Solomun is unlocked, you can get more DJ's, everything can be manages from the computer in the office. Weapons & Upgrades – optional Bombs; by default comes with Explosive cannon similair to Rogue (less AoE damage compared to Lazer), Homing and Barrage missiles similair to Hunter. So if you're thinking of getting it as 1st or 2nd facility, don't. Cash Creation = 3500$ / 30 mins; max 40 (Cash Factory). You need to be inactive (freeroam, not involved in any missions) for 4 hours and have more than 20% of available stock stored for the game to trigger raids. Speedo Custom Controls – More powerful version of Speedo, with plenty of wheelspin. Probably. And to get more product space, you need to upgrade nightclub's storage; by default it has only 20% of maximum and each level adds another 20%. Blimp – 895,000$ / 1,190,350$ Patriot – 50,000$ Hearse – 45,000$ Habanero – 42,000$ Serrano – 60,000$ FQ2 – 50,000$ Beejay XL – 27,000$ Prairie*# – 25,000$ Ruiner* – 10,000$ Futo* – 9,000$ Coquette Classic, Mamba and Penumbra can already be bought, but will also get liveries. I made the calculations for you, and with most profitable businesses active that'll be 41.6k$ / hour. And to keep maximum popularity you'll have to run ~5 minutes promotion missions which will not be explained due to be very straightforward. And it goes without saying, you can sell only in public sessions (solo pub works). Security upgrade straight up doubles those numbers. In the nightclub PC's management tab. The mod is set sometime after events of main story, there isn't a direct timeline, it just happens. If you're selling in public, your High Demand bonus will be calculated from base price. Here's the nightclub mechanics: you need to own facilities from previous updates to get access to accruing different types of goods from your nightclub. Tequi-La-La - The club that was only in one story mission, again same as Bahama Mama's, they're rival club but you can enjoy activities inside. I do not recommend selling 90+ at once currently due to an oversight by R. Recommended for You That is obviously a tiny amount, but you since you don't need to anything to get it, it's kinda reasonable. Upgrades are not that expensive and don't really improve your survivability in freeroam BUT they do during these sales. Rather slow on low altitudes (
